

3922016 TECHNICAL MACHINE SHEET

Product: Wrap-around Labeling Machine Krones Canmatic
Product number: 3922016
Manufacturer: Krones AG
Manufacturer's type: Canmatic 960 – 28
Manufacturing year: 2005
Capacity: 52.800 bph
Status: Running
Condition: Good

JADE Machine Description:

This machine was installed in 2005 and it is still running and available in September 2016. Total running hours today being around 40 000. The labeler is currently working with 0.5, 0.6 and 1.5 liter PET bottles with pre-cut wrap-around polypropylene labels. Label material is polypropylene which was attached with two stripes of hot glue on both end of the label. Labeler has one precut label feeding station and two hot glue stations and 28 container stations. Container rotating is made with teathed plastic belt.

Technical data

Operating hours approx	40 000
Label type	polypropylene, wrap-around
Container table pitch	960 mm
Number of container tables	28
Glue	Hot glue, leading and trailing edge gluing
Rated output:	52 800 bph
Alignment:	Parallel arrangement
Electric Power:	460 V / 60 Hz
