

4072016 TECHNICAL MACHINE SHEET

Product: Injection Molding Machine for PET Preforms, Husky G 600 PET
Product number: 4072016
Manufacturer: Husky Injection Molding Systems S.A., Spain
Manufacturer's type: G 600 PET P/120/130 E140
Manufacturing year: 2000
Capacity: 19.000 preforms/h
Condition: Good

JADE Machine Description:

This is a complete preform production line from granule feeding to readymade PET bottle preform conveyor. The equipment was made by Husky Injection Molding Systems S. A. (Spain) on year 2000 and started to manufacture in 2001. The Human-Machine Interface is an IBM-compatible PC. The nominal capacity of 19000 preform with weight 44 gram for 1.5-liter PET bottles. Neck format is Light BPF. Equipment is in good condition and ready for delivery.

The delivery includes:

- Injection Molding Machine G 600 PET P120/130 E 140 Husky
- Dispenser of the dye MDT3/C Piovan
- Air Conditioner Piovan
- Water circulation pump GP 1Art 1x37 Piovan
- Vacuum pump F316 / 2 Piovan
- Granulate desiccant DS 531 Piovan
- Cooler RPN 1500 Piovan
- In / Out conveyors
- Control instrumentation and control box

Number of molds: 96
Current preform size: 44 grams for 1.5-liter PET
Clamping force: 600 tons
Clamping cycle time: 15 seconds
