JADE Machine Description:

This PET bottle filling line has been filling still water for square 5-liter bottles. The line was reinstalled in 2015 and stopped production in the end of 2016. The line has CIP capability and secondary packaging into stretch film packs and pallets is included. The line is currently installed and ready for relocation. The line is fully operational, but all documentation is missing.

The line includes following equipment:

Preform feeder:

Manufacturer: Peacon
Type: C89-09-01
Year: 2009

Blow molder:

Manufacturer: Chumpower
Type: CPHB-2000
Containers: 5.0 liter PET
Capacity: 450 bph
Number of molds: 2
Cap: 50 mm thread, plastic screw cap
Chiller: KKT-Kraus, type KLB-S76T, year 2000
Operation: Manual

Address: Hämeentie 15 A, 3rd floor, 00500 Helsinki, Finland
Telephone: +358-50- 374 6777
E-mail: info@indmachinery.com
VAT Number: FI21175221

Filler:
Manufacturer: Unknown
Containers: 5 ltr PET
Capacity: 450 bph
Filling process: Gravity

Rinser: Separate standing rinser, PEACON (line rinsing)
Number of filling heads: 2
Number of capping heads: 1, plastic screw cap

Disinfection unit: Enduro Power, MS-11-2D, year 2006

Labeler:
Manufacturer: EME
Type: Series-2000
Number of stations: 1
Label type: OPP (plastic), self-adhesive, front position
Conveyors: approx. 25 m

Stretch wrapper:
Manufacturer: Zlatorog, Croatia
Type: BOP/151
Year: 1999

Palletizer:
Manufacturer: Berchi, Italy
Type: Modular PTF/L
Year: 1996
Pallet size: Standard Euro Pallet 1200 x 800 mm
Pallet marking system: CIMPACK-300, year 2010
Conveyors: approx. 7 meters
