

5602018 TECHNICAL MACHINE SHEET

Product: Complete Syrup Plant with CIP system PEACON 1.000 kg/h
Product number: 5602018
Manufacturer: PEACON
Manufacturing year: 2002
Capacity: 1000 kg sugar/h
Status: Installed
Condition: Good

Pictures:

JADE Machine Description:

This is a complete system for mixing granulated and liquid sugar with liquid. The equipment is made by PEACON in 2002 and it is in good condition and installed. Automatic CIP system is a five-step process and includes complete set of pumps, tanks and a heat exchanger.

Technical data:

Manufacturer: PEACON, Croatia
Year: 2002
Capacity: 1.000 kg/h of dissolved granulated sugar
Control PLC: Siemens Simatic S7
Pasteurization: Plate pasteurizer and filtration 5.000 kg/h
Sugar pipeline: 25 m approx.
Pumps:
100 hl/h, line product pump
100 hl/h, syrup dosing pump
30 hl/h, auxiliary pump
Tanks:
Liquid sugar tank 27 m³
Simple syrup tanks 2 x 43 hl with stirrer
Batching tanks 3 x 80 hl without stirrer
Batching tanks 6 x 86 hl with stirrer
CIP tanks 3 x 40 hl
CIP water tanks 2 x 5 hl
