JADE Machine Description:

This labeling machine was made by KHS in 2011, and delivered in the beginning of 2012. It was taken out of production in February 2019 due to capacity increase. It is dismantled professionally and stored in a warm warehouse. This labeler has been labeling PET bottles of different sizes (0.5 to 2.0 ltr) in 13 different formats. The labeler has one two-reel labeling station and two cutting units, one for 2 liter bottle, one for the other ones. Format parts for each label type are included. The machine has been serviced regularly and was stopped when fully operational, it is in good condition and ready for immediate delivery.
